Section 2: Making Your Bathroom Fit Your Family's Needs

When does your family use the bathroom most. Indicate who uses it, when.

Time	Who uses
6 am – 8 am	
8 am - noon	
Noon – 4 pm	
4 pm – 9 pm	
9 pm – 6 am	

We all use a bathroom for one similar activity! However, people may also use it for other grooming and beauty needs as well. Please list all the ways your family uses the bathroom you are planning to renovate: long, leisurely baths, quick showers, applying makeup, drying hair, styling hair, dying hair...even reading.

Choose the decorating style that is most attractive for your family:

Attractive and practical for parents, kids and friends. We like to keep things clean and fresh, but we don't worry about keeping things ultra-neat.

We love traditional decor and old-world charm. Having a lovely well-kept home is important to us.

We love the energy of modern design, the arts and music. We want our home to be bright, hip and lots of fun.

Please choose the answer from each line that best applies to your family:

There is only one full bathroom in our house

The bathroom is pretty functional – in and out sums it up

We need lots of storage space for linens, towels, pharmaceuticals, cleaning products, makeup and accessories.

2 or more of us always seem to need this bathroom simultaneously

We have enough bathrooms so there's never any congestion

We don't need to store much in the bathroom except makeup, hair accessories, and a few standard medicine cabinet items

This is a family bathroom that has to be practical – but serves as a bit of a retreat for Mum.

We don't need any storage space in the bathroom except for toothpaste and toothbrushes.

The bathroom needs to be a relaxing retreat from a crazy world

If you could splurge on one luxury, what would it be?
